26. The period of service of a Gentleman Cadet will be four years, and the course of instruction will consist of four annual terms.

27. A Cadet who, at such periods of his service as may be determined on from time to time, fails to come up to such standard of education, or to qualify for such class promotion, or to acquire sufficient proficiency in military drills and exercises, or who fails at his final examination to qualify for a certificate of graduation, will be removed from the College and receive a free discharge from service.

28. No extension of the regulated periods on account of absence from any cause except illness will be granted. Cases of protracted absence on account of illness will be specially referred to the General Officer commanding.

48. Cadets who may be permitted to withdraw from the Royal Military College without completing the full term of their engagement, will, before receiving their final discharge, be required to pay the sum of one hundred dollars, in addition to any amount owing by them to the Department of Militia and Defence, or College Funds.

49. On finally leaving the College each Cadet will be allowed to take

with him all articles obtained under paragraphs 42, 43 and 44, provided he is not indebted to the Department of Militia and Defence, or to the College Funds.

50. In the case of a Cadet, who is absent a whole term on account of sickness or rustication, a payment of \$50 shall be required of him for the privilege of his name being kept on the rolls of the College and for a vacancy being guaranteed at the commencement of the next term.

SECTION VI.

COURSE OF INSTRUCTION.

82. The period of four years instruction at the Royal Military College will be divided into four terms.

83. A term will extend from about the 12th September to 30th June.

84. There will be four classes. Cadets on joining the Royal Military College will be placed in the fourth class, and if qualified will pass successively into the first class.

85. The subjects of instruction, obligatory and voluntary, for each class, throughout the entire course, are shown in Table I, page 22.

86. The weekly attendances of each class and the total number of hours available for each subject during the full course of instruction, obligatory and voluntary, is given in Table II, page 23.

87. The marks assigned for every subject in the full course, obligatory and voluntary, and for the obligatory sections, respectively, of such subjects, are shown in Tables III and IV, pages 24 to 26.

In these Tables the subjects of instruction embraced in the military course are marked (M,) those of the civil course (C,) those common to military and civil courses (M) and (C.)

88. Examinations will be held towards the end of each term to ascertain the qualifications of Cadets for class promotion and for final graduation.

89. A Cadet will be liable to be examined at the annual examination of any Term, upon any part of each subject of the course of instruction of his *present* or *previous* classes, whether obligatory or voluntary.

(a.) The section of the *back* course of previous classes in which he will be examined will be notified about three months before the examination.

90. Intermediate examinations may also be held during the Term, the marks obtained at which will be amalgamated with those awarded at the annual examinations.

91. When any subject of instruction is divided into obligatory and voluntary sections, the intermediate examination will be on the obligatory sections only.

92. For voluntary subjects a Cadet in any class may elect to be examined in any section of the same subject allotted to a lower class *instead* of that for voluntary work of that subject belonging to his own class, provided that he has not previously qualified in that section.

(a.) A Cadet must notify his intention to be examined in a paper belonging to a class lower than his own at least *three months before the date of examination*.

93. When two or more subjects are alternative as obligatory or voluntary for examination, a Cadet intending to take up both subjects must notify to the Instructor at the *commencement* of the Term *which* subject he desires to select as *obligatory*.

94. A Cadet desiring to study any voluntary subject must notify his wish to do so to the Commandant within *fifteen days of the commencement of a Term*. If his request is approved, he will be required to continue the study of the subject to within thirty days of the end of the Term. A Cadet will not be permitted to commence the study of a voluntary subject unless the Commandant is satisfied that there is a reasonable probability of the Cadet passing the qualifying examination at the end of the Term in all the obligatory subjects.

95. No voluntary section of a subject of instruction shall be commenced by, or gain any marks for a Cadet until the Professor is satisfied that he is sufficiently forward in the obligatory section, and he has obtained the approval of the Commandant to commence voluntary work.

96. If a Cadet is absent the whole or any portion of a *yearly examination* in consequence of sickness, rustication, or any other cause, he will immediately on his return for the ensuing Term, be required to pass in the whole of the obligatory subjects of the examination which he missed. The *maximum* marks which he will be allowed to count in any of these subjects will be the *minimum* necessary for 1st Class certificate. He will not be allowed to be specially examined in any voluntary section of an obligatory subject which he has missed. He will be allowed to

count marks for prior intermediate examinations, both obligatory and voluntary, and also for all notes, drawings, etc., which he has executed during the Term.

97. If the subject missed is one, *the whole* of which is voluntary, the maximum allowed will be the *qualifying minimum* of that subject:

98. If the absence of a Cadet from examination occurs in his *final year* any examination he may have missed will be held at such time as may be determined by the Commandant.

99. If a Cadet is absent from sickness, rustification or any other cause, at any *intermediate examination*, marks will be allotted to him at the end of the Term in each obligatory or *wholly* voluntary subject which he has missed in such proportion as he may obtain at the other examinations during the Term. Marks will not be allowed for any examination in voluntary sections of obligatory subjects which may be missed.

100. If a Cadet affords to, or obtains from another Cadet, any assistance during any examination, or if he makes use of any improper means of obtaining information relative to any examination, he will, if it is his final examination for graduation, be debarred from receiving any certificate; if at any annual examination other than his final, or at any intermediate examination, *he will be rusticated*, and will in consequence be eligible *only* for a *Second Class* certificate.

101. A maximum number of marks will be allotted to each subject of instruction for each Term.

102. No voluntary section of an obligatory subject shall gain a Cadet any marks in that section unless he obtains one-third marks.

103. No subject, the *whole* of which is voluntary, shall gain marks at any examination unless the Cadet obtains one-third of the maximum marks.

104. When a Cadet elects to be examined in a voluntary subject in a paper belonging to a class lower than his own, the maximum number of marks available will be that of the class to which the paper properly belongs.

105. The proportion of marks assigned to the *whole of the intermediate examinations* in any class will not exceed one-third of the total allotted for the Term to that class.

106. Marks will be assigned at the end of Term for Notes, Recitations and Drawings executed by any class during the current Term. Those for Notes and Recitations will not exceed one-sixth of the total allotted to that class. Each Drawing will have a specified maximum attached to it.

107. From the maximum number of marks assigned for conduct, deductions will be made only as recorded in the Defaulters' Book. The conduct and character of a Cadet will be recorded on his Certificate of

Graduation. The following terms will be used if entitled thereto:—
Exemplary, Very Good and Good.

108. For marks for Discipline, N. C. O's. will be classified in each rank at the end of every Term, in one of four grades of general efficiency, viz.: A. B. C. D.

The proportion of marks for each grade will be:

A. or very good	100	p. c.	} of the maximum marks allotted to each rank.
B. " good	75	"	
C. " moderate	50	"	
D. " Bad	25	"	

Of the marks corresponding to those grades, the number of marks counted will be in proportion to the period in any Term, during which the N. C. officer has been performing the duty of each rank, subject to further deductions only as recorded in the Defaulters' Book against the N. C. O. Discipline marks. No marks will be allowed to a N. C. O. who has held rank for a less period than 28 days.

109. For marks for drills and exercises, and for Non-Commission Officers' Drill Instructors, Cadets will be classified in each branch at the end of every Term in one of four grades of expertness A. B. C. D. The proportion of marks for each grade will be:

A. or very good.....	100	p. c.	} Of the maximum marks allotted to each description of drill.
B. " good.....	75	"	
C. " moderate	50	"	
D. " Bad	25	"	

110. The marks for Civil Engineering and Architecture will be recorded separately. If only one of these subjects is taken up, the full marks allotted to sections *common to both* subjects, such as "Nature, production, &c., of materials for construction," and "Estimating," will be available to *which ever* subject is studied. If *both* Civil Engineering and Architecture are taken up, then one-half the allotted marks of these sections *common to both* will be available for Civil Engineering and Architecture, respectively.

111. In Geometrical Drawing and Descriptive Geometry combined, in Fortification and Military Engineering, and in Surveying, Military Topography, and Reconnaissance, combined, a Cadet in order to qualify or count marks, must complete a specified number of plates in each, and also obtain the required proportion of marks for these plates. Further he must obtain the necessary proportion of marks in the examination.

112. In the second class, Physics and elementary Inorganic Chemistry, are subjects of *obligatory study*, but do not require "Pass" to qualify for promotion into first class.

113. To qualify for any Certificate of Graduation, or to entitle to record "Pass" for Physics on a Certificate, it is compulsory that a Cadet should also obtain the qualifying minimum in the course of Elementary Inorganic Chemistry studied in the second class: this limited knowledge of Chemistry being necessary for prosecuting the study of Physics.

114. The requisite marks in *Elementary Inorganic Chemistry* necessary to record "Pass" for *Physics*, may be obtained either in the second or first class, and will be counted under the head of *Chemistry* in the Cadets *general total*; but they will not entitle him to *any* record of "Pass" in *Chemistry* unless he also obtains the qualifying minimum for the *full course* of Inorganic Chemistry.

115. In the 1st and 2nd Classes painting from copies will be *combined* for qualification with drawing from copies, object, or nature.

116. If a subject of obligatory instruction is *completed* in any class, then in order to qualify either for class promotion, or for *any* certificate of graduation, a Cadet must obtain not only the qualifying minimum of the subject in *that class*, but, should he have failed in it in any previous classes, then also in *addition*, sufficient marks to make up any *deficiency* in the qualifying minimum of the *full course* of the completed subject, incurred by failure in any former class or classes; *i.e.*, he must qualify in each obligatory subject in the *completing class* as well as in the *full course* of the subject.

117. Marks above qualifying minimum which may be obtained for an obligatory subject in any one class will *not* count towards making up in any higher class any deficiency in the qualifying minimum of the same subject required for that higher class, but all marks obtained for an obligatory subject in any class *will* count towards making up the *final total* for the *full course* of that completed subject.

118. The qualifying minimum for class promotion of the *full course* of any *completed* subject is that which is specified for the same subject as being requisite for a second class certificate.

QUALIFICATION FOR PRIZES.

119. The conditions requisite to entitle to prizes are as follows:

(a.) A Cadet who fails to qualify in any obligatory subject at any Term or final examination cannot receive *any prize* either for class or any other subject at the examination in which he fails.

(b.) A Cadet, although he may be highest in a class or first in any subject of instruction, will not be eligible to receive any prize unless the Commandant reports that the work, etc., etc., of the Cadet is of sufficiently high quality to merit such recognition.

For Class Prize.

To count *during any term* the greatest number of marks in all *theoretical* subjects of Instruction, Obligatory and Voluntary in any class.

For Subject Prize.

To count at *end of full term of service* the greatest number of marks in any subject from date of joining to date of leaving Royal Military College.

QUALIFICATION FOR CLASS PROMOTION.

120. The conditions requisite to entitle to class promotion are as follows:—

For promotion from 4th to 3rd Class.

To count the qualifying minimum of four-tenths of the aggregate of the total number of marks allowed for Term work and examinations of the 4th Class, to the obligatory sections of the whole of those subjects of instruction *combined*, which are specified as obligatory for that class.

The obligatory subjects are:—

Mathematics.

Geometrical drawing and descriptive geometry.

Fortification and military engineering.

French.

Freehand drawing.

English

For promotion from 3rd to 2nd Class.

To count the qualifying minimum of the total number of marks allotted for Term work and examinations of the 3rd Class to the obligatory sections in those subjects of instruction which are specified as obligatory for that class, with the following limitation:—A Cadet will not be disqualified for promotion, provided he does not fail in more than *two* obligatory subjects, or in any *one* subject the instruction in which is *completed* in the 3rd Class.

The obligatory subjects and the qualifying minimum are:—

Mathematics and mechanics—Four-tenths.

Geometrical drawing and descriptive geometry, *combined*—Four-tenths.

Fortification and military engineering—One-half.

Theory and construction of artillery—One-half.

Military administration and military law, *combined*—One-half.

Surveying and Military Topography, *combined*—One-half.

French—One-third.

Freehand drawing—One-third.

English — ~~one-half~~

For promotion from 2nd to 1st Class.

To count the qualifying minimum of the total number of marks allotted for Term work and examinations of the 2nd Class to the obligatory sections in *each* (Physics and *elementary* Inorganic Chemistry *excepted*) of those subjects of instruction which are specified as obligatory for that class.

The obligatory subjects and the qualifying minimum are:—

Mathematics and mechanics—Four-tenths.

Fortification and military engineering—One-half.

Theory and construction of artillery—One-half.

Tactics—One half.

Surveying, Military Topography, and Reconnaissance,
combined—One-half.

Physics and elementary inorganic chemistry, *combined*—
One-third.

French—One-third.

Freehand drawing and painting—One-third.

QUALIFICATION FOR CERTIFICATE OF GRADUATION.

121. The conditions requisite to entitle to a certificate of graduation, are as follows:—

To count the qualifying minimum of the total number of marks allotted to the obligatory sections of the *full course* of each of the subjects which are specified as forming the obligatory course of instruction of the College, and *also* the qualifying minimum at the *final* examination of each obligatory subject in *whatever* class the subject may be completed.

The subjects and qualifying minimum are given in the subjoined table.

Obligatory Subjects.	Qualifying Minimum.

NOTE.—A Cadet who has been rusticated will be eligible for Second Class Certificate only.

For "Pass."

- In Obligatory Subjects. { To count the specified proportion of the marks allotted to the obligatory sections *only* of the subject.
- In Voluntary Subjects { To count the specified proportion of the marks allotted to the *full course* of the subject.

For "Special Mention" or "Honours."

To count the specified proportion of the total number of marks allotted to the *full course* of instruction; i.e., in both the obligatory and the voluntary sections of the subject.

The subjects and the specified proportions required are given in the subjoined table.
